EXPERIENCE

Personal Project 1, *Front End Design/React*
October 2020 – November 2020
Designed and developed the front- end user interface for a
portfolio template. This template was created using material -UI
and can be used as a baseline for a personal portfolio.

Personal Project 2, *Full Stack Developer*
September 2020 – November 2020
Developing the entire front-end and backend of
a social media application with React, Node.js, Express, and
MongoDB. This app is a simple exercise to incorporate the
functions to create, read, update and delete.

Independent Web Design / Development
January 2019 – Present
Provide UX, content design, and WordPress development for small
business and portfolio websites. Services provided include: testing
for functionality, best design practices, consultation, web hosting
and on-going support.

DESIGN EXPERIENCE

Davis Door - Team Project, *Interaction Design - UX*
September 2018 – October 2018
Created a design strategy to help stream- line key customer interactions
with their website and dispatch system. Design concepts were proven
in testing with users and user flows. The results were implemented
in final development of their website.

OTHER WORK EXPERIENCE

Safran Cabin, Sikorski, Boeing -Design Engineer, *Systems Designer*
February 2006 – April 2020
Contract Engineer for Aerospace. Design and integration for
systems and mechanical components for flight controls, hydraulics,
fuel, and environment control systems on various aircraft.
